1 Fast detection of communication patterns in distributed executions

Thomas Kunz, Michiel F. H. Seuren

November 1997 Proceedings of the 1997 conference of the Centre for Advanced Studies on Collaborative research

Publisher: IBM Press

Full text available: pdf(4.21 MB)

Additional Information: full citation, abstract, references, index terms

Understanding distributed applications is a tedious and difficult task. Visualizations based on prodiagrams are often used to obtain a better understanding of the execution of the application. The tool we use is Poet, an event tracer developed at the University of Waterloo. However, these distributed of the very complex and do not provide the user with the desired overview of the application. In experience, such tools display repeated occurrences of non-trivial commun ...

2 Computing as a discipline

D. E. Comer, David Gries, Michael C. Mulder, Allen Tucker, A. Joe Turner, Paul R. Young
February 1989 Communications of the ACM, Volume 32 Issue 1

Publisher: ACM Press

Full text available: pdf(1.68 MB)

Additional Information: full citation, abstract, references, citings, index to

The final report of the Task Force on the Core of Computer Science presents a new intellectual f the discipline of computing and a new basis for computing curricula. This report has been endor approved for release by the ACM Education Board.

3 Using e-CRM for a unified view of the customer

Shan L. Pan, Jae-Nam Lee

April 2003 Communications of the ACM, Volume 46 Issue 4

Publisher: ACM Press

Full text available: pdf(92.62 KB) html
(26.30 KB)

5 Information retrieval on the web

June 2000 ACM Computing Surveys (CSUR), Volume 32 Issue 2

Publisher: ACM Press

Full text available: pdf(213.89 KB)

Additional Information: full citation, abstract, references, citings, index te

In this paper we review studies of the growth of the Internet and technologies that are useful for search and retrieval on the Web. We present data on the Internet from several different sources as well as projected number of users, hosts, and Web sites. Although numerical figures vary, ovicited by the sources are consistent and point to exponential growth in the past and in the comir Hence it is not surprising that about 85% of Internet user ...

Wisualization: Periscope: a system for adaptive 3D visualization of search results

Wojciech Wiza, Krzysztof Walczak, Wojciech Cellary

April 2004 Proceedings of the ninth international conference on 3D Web technology

Publisher: ACM Press

Full text available: pdf(1.37 MB)

Additional Information: full citation, abstract, references, citings, index te

A system for efficient 3D visualization of Web search results is presented. The system, called Pe a novel approach for adaptive and customizable visualization of complex data. The whole proces into a number of interactive steps. At each step, the system can automatically choose the best presenting search results. The user can also select a specific presentation method to focus on comproperties of the result obtained. After analyzing the current search res ...

7 An Internet-based negotiation server for e-commerce

Stanley Y.W. Su, Chunbo Huang, Joachim Hammer, Yihua Huang, Haifei Li, Liu Wang, Youzhong Li Pluempitiwiriyawej, Minsoo Lee, Herman Lam

August 2001 The VLDB Journal — The International Journal on Very Large Data Bases, Volume Publisher: Springer-Verlag New York, Inc.

Full text available: pdf(355,19 KB)

Additional Information: full citation, abstract, citings, index terms

This paper describes the design and implementation of a replicable, Internet-based negotiation conducting bargaining-type negotiations between enterprises involved in e-commerce and e-buse Enterprises can be buyers and sellers of products/services or participants of a complex supply confine in purchasing, planning, and scheduling. Multiple copies of our server can be installed to complex services of Web servers. Each enterprise can install or select a trusted negotia ...

Web mining for web personalization

Magdalini Eirinaki, Michalis Vazirgiannis

February 2003 ACM Transactions on Internet Technology (TOIT), Volume 3 Issue 1

Publisher: ACM Press

Full text available: pdf(293.73 KB)

Additional Information: full citation, abstract, references, citings, index te

Web personalization is the process of customizing a Web site to the needs of specific users, taki of the knowledge acquired from the analysis of the user's navigational behavior (usage data) in with other information collected in the Web context, namely, structure, content, and user profile the explosive growth of the Web, the domain of Web personalization has gained great momentu research and commercial areas. In this article we present a survey ...

Replication for web hosting systems

Swaminathan Sivasubramanian, Michal Szymaniak, Guillaume Pierre, Maarten van Steen September 2004 ACM Computing Surveys (CSUR), Volume 36 Issue 3

Publisher: ACM Press

Full text available: pdf(374.99 KB)

Additional Information: full citation, abstract, references, index terms

Replication is a well-known technique to improve the accessibility of Web sites. It generally offe client latencies and increases a site's availability. However, applying replication techniques is no various Content Delivery Networks (CDNs) have been created to facilitate replication for digital providers. The success of these CDNs has triggered further research efforts into developing adv replica hosting systems</i>. These are systems that ...

¹⁰ Initial trust and the adoption of B2C e-commerce: The case of internet banking

Kyung Kyu Kim, Bipin Prabhakar June 2004

ACM SIGMIS Database, Volume 35 Issue 2

Publisher: ACM Press

Full text available: pdf(249.24 KB)

Additional Information: full citation, abstract, references, index terms

A possible reason for the delayed acceptance of the Internet as a retail distribution channel may of trust consumers have in the electronic channel and in the Web merchants. Few prior studies adoption of business-to-consumer e-commerce have considered trust in information technology important determinant of adoption behavior. This research explicitly encompasses the electronic the merchant as objects to be trusted in a specific e-commerce application, i.e. In ...

Reprint: MSIS 2006: model curriculum and guidelines for graduate degree programs in info systems

John T. Gorgone, Paul Gray, Edward A. Stohr, Joseph S. Valacich, Rolf T. Wigand June 2006 ACM SIGCSE Bulletin, Volume 38 Issue 2

Publisher: ACM Press

Full text available: pdf(868,32 KB)

Additional Information: full citation, abstract, index terms

This article presents the MSIS 2006 Model Curriculum and Guidelines for Graduate Degree Prog Information Systems. As with MSIS 2000 and its predecessors, the objective is to create a mod designing or revising an MS curriculum in Information Systems. The curriculum was designed by committee of the Association for Information Systems and the Association for Computing Machinery.MSIS2006 is a major update of MSIS 2000. Features include increasing the number of C ...

14 QoS differentiation in asynchronous bufferless optical packet switched networks

Harald Øverby, Norvald Stol

May 2006 Wireless Networks, Volume 12 Issue 3

Publisher: Kluwer Academic Publishers

Full text available: pdf(2.22 MB)

Additional Information: full citation, abstract, references, index terms

Optical Packet/Burst Switched networks (OPS/OBS) have emerged as promising all-optical netw architectures for future core networks due to good resource utilization and the ability to handle speeds in a cost-efficient way. Regarding these networks, Quality of Service (QoS) differentiatic provided in order to give sufficient QoS to real-time applications, and to utilize network resource In this paper, we present three fundamental different QoS differentiation sc ...

Full papers: SAKM: a scalable and adaptive key management approach for multicast come Yacine Challal, Hatem Bettahar, Abdelmadjid Bouabdallah

April 2004 ACM SIGCOMM Computer Communication Review, Volume 34 Issue 2

Publisher: ACM Press

Full text available: pdf(480.59 KB)

Additional Information: full citation, abstract, references

Multicasting is increasingly used as an efficient communication mechanism for group-oriented a the Internet. In order to offer secrecy for multicast applications, the traffic encryption key has t whenever a user joins or leaves the system. Such a change has to be communicated to all the c The bandwidth used for such rekeying operation could be high when the group size is large. The solutions to cope with this limitation, commonly called 1 affect ...
